The following is an examiner's statement of reasons for allowance: The closest prior art, Berger DE 19744809 C1, does not teach or suggest, alone or in combination, the instant product by process. The prior art reference of Berger does not teach or suggest the instant heating, cooling and tempering steps, which steps are directly linked to not only the type of crystalline phase and but also the relative proportions of those crystalline phases in the composition. Therefore, the instant product by process is structurally distinct with different crystalline phases and proportions from the prior art reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ernst V. Arnold whose telephone number is 571-272-8509. The examiner can normally be reached on M-F (6:15 am-3:45 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
